

Epilogue to Canadian P L Dollars Affair

Issue Appears Favorable for Investor-Collectors

"Money alone sets all the world in motion" wrote Publius in 42 B.C.; thus last week Canadian proof-like coins set Ottawa and Philadelphia in motion, and as a sequel the Canadian and U.S. numismatic circuits. The prelude to the situation is vaguely reminiscent of the cloak and dagger stories only too familiar to the numismatic community in the past year.

In itself, the move to reduce the maximum allowable limit from fifty to five sets in Ottawa, does not come as a shattering surprise. The influx of orders received at the Canadian mint made the move almost inevitable, considering the inherent implications of poor distribution.

The exact course of events immediately preceding the Ottawa decision remains a matter of conjecture. The original rumor, it is said, emanated from the Department of Finance which allegedly leaked the impending news to "a firm of reputable Ottawa coin dealers."

When questioned about the "leak", Mr. Norval A. Parker, Master of the Royal Canadian Mint is said to have declined to comment on the situation. When on the following day an attempt was made to contact Mr. Parker, the Ottawa mint revealed the Master's departure for Washington. His meetings in Philadelphia and the Capital are now history and of public record albeit the conclusions reached there are unavailable to the general public. The teletype coin markets responded with typical speculative ardor and sent prices on Canadian proof-like dollars soaring; The b o u y a n t performance succeeded in rubbing off on Canadian proof like sets which also advanced in price.

The dust has now settled, the Royal Canadian mint has announced its forthcoming policies and left the public wondering about possible consequences. On the bright side it can be readily concluded, a broader and fairer distribution of proof-like sets will take place in 1965. To what extent the decision will affect coin dealers, remains a matter of conjecture.

To the dealer with limitless re-

sources, able to order thousands of sets, the situation is outright distasteful. To the medium and small coin dealer the development comes as somewhat of a blessing. For indeed, assured of a wider distribution at the individual coin investor level, a greater number of sources of supply become available thus creating a more liquid market. Hence a more favorable trading climate.

On the not so bright side, is the increase in price from Canadian \$3 (\$2.79 U.S.) to Canadian \$4 (\$3.72 U.S.) per set. This twenty-five percent increase discounts undoubtedly higher silver prices and a tight supply and demand situation. To worsen matters; a rumored prospective 4% to 5% revaluation of the Canadian dollar. Because of its far reaching international implications, revaluation can not be ascertained and remains conjectural at the present time.

On balance, the news must necessarily be construed as favorable for coin investors and collectors, for they alone stand to benefit in the long run.

The publicity given the Canadian proof-like sets will generate renewed interest in an already active market. As to the subject of proof-like dollars, their elimin-

ation as an entity for issuance to collectors disrupts a tradition now one decade old.

Supplies for 1964 proof-like dollars, hitherto considered burdensome in some quarters, appear rather scant in light of the new developments. This fact is further enhanced by the already brisk demand for 1964 regular circulation silver dollars.

Poor strikes of the regular issue and the appearance on the market of \$1,000 mint sealed bags instead of the low keyed \$100 bag, have focused attention on the single proof like '64 dollar; they emerge thus at an eminently desirable time.

The initial speculative flurry immediately following the proof-like dollar news-release may well be short-lived; indeed the Royal Canadian mint will continue to turn out proof-like dollars till December, and as fresh supplies hit the market, fears for a tight situation could dissipate in the process.

An interesting sidelight to the Canadian market is the release of the 1965 Standard Catalogue of Canadian coins, tokens and paper money by J. E. Charlton; the proof-like set and dollar price section is rather out of tune especially where the recent dates are con-

cerned. The sharp disparity does not go beyond 1962 however.

Recent price trends show proof-like dollars for 1962, \$13.00; 1963, \$10.00 and 1964, \$7.25. Charlton's catalogue lists respectively for \$7.50, \$5.00 and \$3.25, a 100% across the board increase.

The noticeable lack of interest in the Canadian proof-like dollar affair in certain segments of the business was highlighted at the N.E.N.A. conference held in Boston October 2, 3, 4. The event was being cosponsored by the New England C.N.A., an organization essentially preoccupied with Canadian numismatics in New England. A large number of Canadian dealers had tables at the event, the numismatic paper "Canada Coin News" was represented by its dynamic publisher Cale Jarvis in person.

Obviously none of the Canadian dealers present had geared themselves to take advantage of the speculative move in Canadian proof-like dollars. The majority of their material stressed heavily the scarce, rare, and quality material, and for this they are to be commended.

Likely the market will now halt, pause, and reappraise the situation. Chances are great indeed the immediate past events will benefit the numismatic community and contribute to an orderly and stable market.

Foreign Issues Highlights

News of forthcoming foreign issues is now anxiously watched by U. S. coin collectors and investors, their mass appearance on the domestic scene augurs well for the industry. They afford the prospective participant in numismatics an excellent initial medium.

Expected for immediate delivery are the Denmark 5 Krone minted to commemorate the wedding on September 18, 1964, of Princess Anne-Marie of Denmark to King Konstantin of Greece.

To follow later, a Greek 30 Drachmai issue also commemorating the royal wedding. Again in the limelight, the 10 Krone Norwegian 1964 restrike. The initial issue was such a great success that total mintage is now expected to reach 1.3 million pieces. The coin was

U.S. Coin Type-Collecting

Diversification Delights Numismatists

By Christian F. Verbeke

This is the third and final installment of this series.—Ed.

A systematic approach to coin collecting methods is at best an approximation of perfection, for no method provides the ultimate answer.

Type-collecting approaches the ideal in coin collecting, provided all representative "types" are included. Major varieties, especially when they entail drastic design changes or differences, must by extension be considered representative specimens.

A valid example of interpretation on what constitutes a "type" can be found in the Liberty Head Nickel of 1883 Without "Cents". Yeoman lists the coin as a major variety included in a "type" list. A leading numismatic magazine "Coins" considers the coin "type" in itself (see Tele-Quotes section). Reinfeld and Chamberlain include the coin under the general "type" Liberty Head nickels 1883-1912.

Manufacturers of plastic displays and albums for types often have their own interpretation of "type" determination. Their motivation is essentially dictated by merchandising considerations. Indeed a too comprehensive and intricate type album or display will not sell too readily as the prospective buyer realizes the enormous expense involved in completing it.

Fortunately, plenty of latitude is left the collector. Many reputable firms have now begun customizing plastic displays and exhibits thus permitting the collector to exercise his own good judgment. The second part of this type-collection study will deal with the more intricate and more expensive series, again in tentatives order of ascending cost.

Silver Dollars 1794 - 1935

Bust Type 1794-1795

Selection: 1795 (two or three leaves under wing varieties) Fine: \$190-210, Unc: \$1,000-1,100. Draped Bust Type, 1795-1798 1798 13 stars (small eagle) . . . Fine \$200, Unc: \$850.

Heraldic Eagle Type, 1798-1803

Selection: 1796 (all varieties) . . Fine: \$125, Unc: \$600-700, or: An intricate series by any standards, varieties and subvarieties abound.

Selection: 1799, 1800, 1802, 1803, all Fine: \$100, Unc: \$300-400

Prices vary within a wide range and are often subject to negotiation.

The 1804 silver dollar is a field of numismatics in itself and constitutes an interesting side line study. Ref.: Bolender, "The United States Silver Dollars From 1794 to 1803," published in 1950; Newman - Bressett, "The Fantastic 1804 Dollar," published in 1962, are classics. Liberty seated, Flying eagle 1836-1839 types are pat-

terns (Christian Gobrecht design). The 1836 C. Gobrecht on base, Eagle flying left in starred field, plain edge, although scarce is perhaps slightly more accessible. Lists VF: \$600, Proof: \$1,350, it is doubtful that any specimens can be located at these prices. Inclusion in a type-collection is thus not compulsory.

Liberty Seated Type, No Motto, 1840-1865

Selection: 1842, 1843, 1846, 1847, 1849, 1859-O . . . Fine: \$15, Unc: \$50-60

Liberty Seated Type, Motto Added, 1866-1873

Selection: 1871, 1872 . . . Fine: \$12.50, Unc: \$37.50

Alternatives: 1866 through 1870 . . . Fine: \$15.00 to \$17.50, Unc: \$45-60

Liberty Head or Morgan Type, 1878-1921

Selection: Numerous low priced issues are available. Unc: \$3.00. Peace Type, 1921-1935

Selection: Numerous low priced issues are available. Unc: \$2.25.

Minimum silver dollar type-collection should include: Bust, Liberty Seated, Morgan, Peace, and Trade Dollar.

Half Cents 1793-1857.

A not particularly exiting series to the uninitiated collector unfamiliar with the intricacies of "restrikes". This denomination has lacked collectors' popularity because of its early discontinuation over a century ago. Common dates can actually be acquired for a most reasonable price.

Liberty Cap Type, Facing Left, 1793

Only struck in 1793. Subsequent Liberty and Bust types face right. Sell for VG: \$300, VF \$1,000.

Liberty Cap Type, Facing Right, 1794-1797

Selection: 1794, 1795, 1797 . . . VG: \$65-75, VF: \$200-250.

Draped Bust Type, 1800-1808

Selection: 1803 through 1808 . . Fine: \$10-15, XF: \$25-35

Turban Head Type, 1809-1836

Prices permit upgrading to minimum Fine and Preferably Uncirculated condition.

Selection: 1826, 1828, 1832, 1833, 1834, 1835 — Fine: \$6.50-7.50, Unc: \$35-40.

Braided Hair Type, 1839-1857

Proofs, originals, and restrikes were issued from 1840 to 1849. All are considered scarce and retail in the \$550 area. No coinage for general circulation issued during this period. Regular coinage resumed in 1849.

Selection: 1851 through 1856—Fine: \$7.50-10.00, Unc: \$35-40.

Large U.S. Cents, 1793-1857 . .

Immensely popular with the connoisseur. To mind come the names Newcomb, Mathewson, Helfenstein, Sheldon-Hines, and a myriad of others. A select group of numismatists have literally lived the existence of Large U.S. Cents to cite a few, Breen, Merkin, Washburn, Gould, and so many other dedicated students of the numismatic scene. The August Helfenstein sale conducted by Mer-

kin and the recent A.N.A. convention in Cleveland suggest a growing demand in Large U. S. Cents. Buoyant prices exhibit to the fullest this rebirth of interest. The 1793 types, are unfortunately for the type-collector, "hard" coins.

Chain Type, 1793

Selection: AMERICA variety . . . Good: \$200, Fine: \$550.

Wreath Type, 1793

Selection: Edge with vine and leaves . . . Good: \$125, Fine: \$300. Liberty Cap Type, 1793 - 1796

Characterized by multiple varieties.

Selection: 1795 Plain edge . . . VG: \$20, VF: \$65

Alternative: 1794 . . . VG: \$30, VF: \$90.

Draped Bust Type, 1796-1807

A most comprehensive array of varieties and subvarieties haunts this series.

Selection: 1798, 1801, 1802, 1803, 1805, 1807 . . . VG: \$10-13, VF: \$25-35.

The 1798 offered in this price range is the small date; the 1801 considered is the blunt "1" (normal dies). The 1803 issue can be either the small or large fraction with blunt "1" in the date. Same remarks for 1807 with normal "1" in date however.

Turban Head Type, 1808-1814

Hard to obtain in choice condition due to lower grade copper alloy. This condition was corrected in the subsequent issues and non-existent in the prior ones.

Selection: 1812 small or large date . . . VG: \$9.00, VF: \$27.50.

Alternatives: 1810, 1814 . . . VG: \$12.50, VF: \$50.00.

Chain Type, 1793

Selection: AMERICA variety . . Good: \$200, Fine: \$550

Wreath Type, 1793

Selection: Edge with vine and leaves . . . Good: \$125, Fine: \$300. Liberty Cap Type, 1793 - 1796

Characterized by multiple varieties.

Selection: 1795 Plain edge . . . VG: \$20, VF: \$65

Alternative: 1794 . . . VG: \$30, VF: \$90

Draped Bust Type, 1796 - 1807

A most comprehensive array of varieties and subvarieties haunts this series.

Selection: 1798, 1801, 1802, 1803, 1805, 1807 . . . VG: \$10-\$13, VF: \$25-\$35

The 1798 offered in this price range is the small date; the 1801 considered is the blunt "1" (normal dies). The 1803 issue can be either the small or large fraction with blunt "1" in the date. Same remarks for 1807 with normal "1" in date however.

Turban Head Type, 1808 - 1814

Hard to obtain in choice condition due to lower grade copper alloy. This condition was corrected in the subsequent issues and non-existent in the prior ones.

Selection: 1812 small or large date . . . VG: \$9.00, VF: \$27.50

Alternatives: 1810, 1814 . . . VG: \$12.50, VF: \$40.00

Coronet Type, 1816 - 1839

Prices permit upgrading to Fine and Uncirculated.

Selection: 1817, 1818, 1819, 1820, 1827, 1831, 1832, 1833, 1837, 1838 . . . Fine: \$5-\$6, XF: \$10-\$20, Unc: wide range, \$50-\$75

Braided Hair Type, 1839 - 1857

Selections: 1844 through 1856 without overstrikes . . . Fine: \$3-\$4, XF: \$6-\$8, Unc: \$25-\$40

Dimes, 10 Cent Silver, 1796 to date

A series of continuous and sustained interest struck almost without interruption since inception to date.

Draped Bust Type, 1796 - 1797

Selection: 1797, 13 stars, somewhat more accessible in this series . . . Good: \$185, Fine: \$400

Heraldic Eagle Type, 1798 - 1807

Numerous varieties encountered.

Selection: 1805, 4 and 5 berries . . . Good: \$35, Fine: \$100

Alternative: 1807 . . . Good: \$40, Fine: \$95

Liberty Cap Type, Large Date, 1809 - 1828

Prices permit upgrading.

Selection: 1820 large and small O, 1821 large and small date, 1825, 1827 . . . Fine: \$9-\$10, XF: \$30-\$40

Liberty Cap Type, Small Date, 1828-1837 (modified weight)

Selection: 1831 through 1836 . . Fine: \$5, Unc: \$35-\$37.50

Readily available.

Liberty Seated Type, 1837 - 1891

Selection: 1842, '43, '49, '51, '52, '54, '55, etc., wide choice and variety . . . Fine: \$3.50-\$4.00, Unc: \$25-\$30

Sometimes considered separately under this period, as possible types even though they are major varieties: Liberty seated, no stars on obverse 1837-1838-O; Liberty seated with stars 1838-1860 (arrows at date 1853-1855);

Liberty seated with legend "U. S. A." 1860-1891 (arrows at date 1873-1874).

Liberty Head or Barber Type, 1892-1916

Designed by Charles E. Barber and part of the famous triumvirate 10 cents, 25 cents, and 50 cents which were issued concurrently from 1892 to 1916.

Wide choice of material is available at reasonable prices . . . Fine: \$3-\$5, Unc: \$10-\$15

Mercury Type, 1916 - 1945

No specific selection. B.U. specimens are common and easily available. Unc: \$1.00

Roosevelt, 1946 - to date

No specific recommendation, common in uncirculated condition.

Minimum dime type-collection should comprise: Bust, Turban Head, Liberty Seated, Liberty Head (Barber), Mercury, Roosevelt.

Quarters, 25 Cents, 1796 To Date

"Hard" series, especially in earlier series.

Draped Bust Type, 1796

Issue of 1796 only . . . Good: \$650, Fine: \$1,750

(Continued on Page 22)

Trends in Medals

Much in the news, a medal struck for the Concord, N. H. Bicentennial in 1965.

The fact that part of this issue is now oversubscribed reveals the interesting trends developing in medals. Indeed the 1,000 silver, serially numbered, pieces are all sold out, according to the Chairman of the Bicentennial commission.

The bronze version of the medal remains available, the entire issue is limited to a few thousand. Latest information received, schedules release of the

medals on or about October 15.

Chairman Frederick S. Hall, prominent Concord attorney, recently described the issue in the following terms: "Concord Bicentennial, Inc., a non profit corporation, organized for the purpose of planning and coordinating the year long celebration, has authorized the Concord Rotary Club to sponsor the striking of the official commemorative coin. A portion of the net profits resulting from the sale will be allocated to the Corporation for the pur-

pose of helping to defray the cost of the year long celebration and the balance will go to the Concord Rotary Club's charity fund to be used for its varied charitable projects.

For the obverse of the coin we have used the great seal of the City of Concord, reproduced on the commemorative by special vote of the City's Board of Aldermen.

The history of the City begins with a small settlement made in 1725 when it was called the Plantation of Penacook. Shortly thereafter the General Court of Massachusetts incorporated the settlement as the Town of Rumford and in 1765 the name was officially changed to Con-

cord. In 1816, shortly after the adoption of the State Constitution, Concord became the state capital and adopted its City Charter in 1853. On May 11th of that same year the City Council adopted a resolution providing for a city seal, which resolution was later adopted as a City Ordinance in 1949,

1853", with the motto, "Law - Education - Religion."

Although there is no reference to it in the ordinances it is generally believed that the motto "The wilderness was glad for them" is a shortened quote from the Biblical passage in Chapter 35 of Isaiah "The wilderness and soli-

providing as follows: "The seal of the city shall be in the form of a scroll, with the following device and inscription: "A field encompassed with a scroll; on the field a view of the State House, as existing previous to the 1909 enlargement; above, the inscription, "Penacook 1725," with the motto, "The wilderness was glad for them," below, the inscription in scroll, "Concord adopted city charter,

tary place shall be glad for them."

Inasmuch as the Concord Coach is the theme of the Bicentennial celebration is seemed appropriate to use this for the reverse of the coin. With permission of the Wells Fargo Bank of San Francisco, California, we used as a model an 1871 lithograph by Aaron Stein, an employ of the Wells Fargo Company, one of the originals of which

U.S. Large Cents, Mathewson Vs Helfenstein

A Comparative Study, 1955 and 1964

By Maurice M. Gould

The recent public auction sale of the Louis Helfenstein collection of Large Cents and the fabulous prices realized, have focused the spotlight on the Large Cent series. Many resumes of this auction have been written and various and sundry articles have made their appearance concerning the future of Large Cents.

Just a few years ago, the Large Cent specialists and top collectors were few and far between, and now with the proper publicity directed to this field, there is no doubt that many collectors will now turn to a series long and sadly neglected. With only a few hundred new collectors looking for top grade material, the prices could skyrocket much higher and there will not be enough available material to meet the demand.

In 1955, I was fortunate in hearing of the famous Mathewson collection of Large Cents, and after a great deal of negotiation, the Copley Coin Company purchased this outstanding collection. The collection consisted of 141 coins, almost every piece in the uncirculated category and in my mind, finer than the Helfenstein Large Cents, as it contained the 1799 over 8, and five gorgeous 1793's.

I would like to compare some of the prices which the Mathewson coins brought in 1955 with the Helfenstein prices in 1964, but briefly will first give the background of the Mathewson collection.

Mr. Mathewson collected coins for more than seventy years and his pet collection was his U. S. Large Cents. He told me incidents relating to the acquiring of his collection, including the macabre acquisition of a brilliant gem Large Cent from the eye of a dead man, and his purchase of entire Large Cent collection just to better one piece in his own collection. He would then dispose of the duplicates.

Over the years, he sold many of his collections, but retained the Large Cents until he was in his nineties. Walter Breen was one of the few privileged to see them before the Copley Coin Company purchased them. On examining the various items, he would say, time and time again, "This is the finest piece known," and he was truly amazed at the wealth of rarity, beauty and brilliance of these coins.

Frank D. Washburn of the Copley Coin Company, who is a well-known specialist in this field and who has handled and collected this series for many years, was also amazed at this once-in-a-lifetime collection.

When the collection was first offered for sale, many of the top collectors in the country, such as Mrs. Paschal, Dr. Sheldon, Doug Smith, Lucius Ruder, Miles, Helfenstein, Blaisdell, Futter, etc., purchased many of the choice pieces immediately.

A recent article in Pace by Christian Verbeke gave an author-

itative review of the Helfenstein sale and now I will try to compare and give facts on the Mathewson versus Helfenstein collection including some prices, condition, etc.

Lot No. 1 (Helfenstein) 1793 with mint traces of color — in 1964 — brought \$2900.00.

*Same Coin — sold in 1955 — for \$300.00 (Mathewson)

Lot No. 25 (Helfenstein) 1802 3rd finest error fraction — in 1964 — brought \$750.00.

*Same Coin — sold in 1955 — for \$130.00 (Mathewson)

Lot No. 39 (Helfenstein) 1806 frosty gem unc. \$2500.00 — in 1964

*Same Coin — sold in 1955 — for \$250.00 (Mathewson)

Lot No. 41 (Helfenstein) 1807 over 6 gem unc. \$1350 — in 1964

*Same Coin — sold in 1955 — for \$150.00 (Mathewson)

Lot No. 178 (Helfenstein) 1838 light olive unc. \$70.00 — in 1964

*Same Coin — sold in 1955 — for \$10.00 (Mathewson)

It is also possible that other coins in the Helfenstein collection came from Mathewson's coins and purchased from the original owners.

A few facts about this fabulous collection are as follows: A 1793 Chain, period after date, XF, sold for \$650.00. Chain 1793 Ameri. AU, brought \$350.00. A 1793 Liberty Cap, XF, sold for \$750.00. A 1793, Sheldon 11-A, the Dr. French specimen, XF, sold for \$350.00. These are all 1955 retail prices at which sales were made, as none of the pieces were sold at auction.

The following are more Mathew-

son Large Cents, with prices they brought in 1955: 1794, S-21 (no finer specimen known Hays) Red Unc., \$200.00; 1794, S-59, VF-XF (one of the top condition coins known) \$75.00; This piece came from the Newcomb collection; 1794, S-43, from the Hines collection — pictured on Chapman plate; UNC. \$125.00; 1794, S-30, slight nicks on edge, UNC. \$75.00.

There were also many other choice 1794's. 1795, S-75, lettered edge. RED UNC. finest specimen known; \$450.00; 1795, S-78, UNC. \$85.00; 1796, S-119, AU-UNC. \$175.00; 1797, two UNC. pieces, brought approximately \$150.00 each; 1798, S-184, UNC. \$60.00; 1799, S-189, XF-AU \$900.00; (this was probably the second best known next to the famous Hines specimen, which sold at \$2500.00 a few years previously, in almost the same condition); 1801, S-224, UNC. \$75.00; 1802, S-228, 1/000, UNC. \$75.00; 1803, S-260, BR. UNC. \$85.00; 1804, S-266, broken dies, UNC. \$850.00;

This is one of the finest known 1804's. A few years previously, the Copley Coin Company had purchased the best known 1804, the UNCIRCULATED Hines specimen for \$800.00. After holding the coin for two years, and with no takers at a higher price, this coin was sold at cost to Ed. Rice of New Jersey, and I believe it has finally found a happy home in the Blaisdell collection. Just think what this coin would bring in an auction today!

1805, S-269, BR. UNC. \$125.00; 1808, S-278, UNC. \$250.00; 1809, S-280, UNC. \$350.00; 1810, S-283,

UNC. \$175.00; 1811, S-287, UNC. \$200.00; (this coin was one of the finest or the finest known).

Coins from 1817 to 20 in UNC. condition sold at \$15.00 to \$35.00 each. 1821, UNC. sold at \$75.00 each; 1824, N-2, the finest known UNC. specimen, brought \$75.00; 1825, N-9, a prooflike gem brought \$100.00; 1828, a small date, which looked like a proof, and was the finest known, brought \$100.00; The 1829, which came from the French collection, in UNC. condition, sold at \$30.00; The entire eight 1839 cents in this collection were all UNC., several were the finest known, one was Full Red and Prooflike, and a few of the GEMS were as BRILLIANT as a 1964 cent — these coins brought \$30.00 to \$50.00 each; The 1841 was a PROOF and this rarity brought only \$150.00; The 1842 was a TONED GEM PROOF, small date, and also sold at \$150.00; There were several other PROOFS — 1845 PURPLE, 1846 and 1857, and these brought about \$125.00 each; The late dates in the '40's and '50's brought \$7.00 to \$10.00 each in UNC condition and these were truly beautiful coins.

I also noticed among our records such GEMS as 1822, N-6, PROOF Surface, UNC. \$30.00; 1825, N-9, PROOFLIKE, \$100.00; And 1834, N-1, PROOFLIKE, at \$50.00;

Coin after coin, which are not mentioned here, were GEMS, and are seldom offered or even seen at auctions today. These coins actually were museum pieces and I believe it would be impossible to assemble today such an outstanding collection, even with unlimited funds. It seems that for many years large cents were left in their natural state, but today many of them are now being cleaned, some to good advantage, but mostly at the expense of the beauty of the coin. Study your coins and know your dealer.

The editor of Pace recently mentioned the transition to type coin collecting and this is becoming especially true of large cents, as it is difficult to obtain complete date sets and various varieties. However, many of the coins for a type set can still be purchased at reasonable prices. I suggest to anyone, if it is possible, to purchase your 1793's as a great many collectors need these coins, and there is no doubt that these early types will continually rise in price. Type coins, like a 1794 or a VF or XF 1802 or 03, may still be obtained at very reasonable prices. In the late dates in the '50's, it is still possible to pick up an XF or UNC. at nominal prices.

The large cents, while they have moved forward slowly for many years, have not had the sensational rise of the Lincoln's and Indian Heads, and as far as scarcity or rarity, they would run many, many more times rarer than the recent series, with the prices still

(Continued on Page 21)

very little. In many instances the same prices are listed for large and small date varieties. There are also many wide date and close date varieties listed as well as many overdate coins.

The reason for the many early overdates was simply that the Mint in those days tried to get as much use as possible out of their dies and if at the end of a calendar year they still had some usable dies left, they would often just recut the following years date on the dies and go on striking coins. After all, the main purpose of coins is to carry on commerce and the date is secondary. This does not mean that we agree with the present bureaucratic thinking that we should continue making 1964 coins indefinitely, as our country has been able to change the dates on the coins every year since 1793 and we don't see any reason why this cannot be continued.

Of course in the early days of our coinage sometimes to make full use of the existing dies the current dies were used the following year until they wore out without recutting the following year's date on them. This practice was pretty limited, as they did have a good idea of how many dies were needed to finish out the year, and the few dies that were still in good shape didn't last

too long into the following year.

This is also the reason that many of the early Mint figures are unreliable as all that was reported was the amount of each coin in each denomination that was struck during the calendar year and when the same date coin was struck in the early months of the following year, it was listed as the following years coinage regardless of the date on the coins.

Now all of the above applies to all series of early United States coins not just the cents. There were date varieties in half dimes, dimes, quarters, half dollars, and the early silver dollars too.

While we are talking about early coins we might bring this interesting fact to your attention. Many people wonder why the early half dollars in the first half of the 1800s are relatively inexpensive considering their age. The reason for this is that there were no silver dollars minted for regular circulation in the United States between 1804 and 1839. To make up for the lack of silver dollars, there were many more half dollars coined during this period.

Also during the period of the Seated Liberty type silver dollars, 1840 through 1873, there were more half dollars coined nearly every year than there were dollars. The half dollars are so plentiful in relation to

other early coins that the prices on most of them are relatively low. Another reason that they are relatively low is that there are few collectors who try to make complete sets of these early coins, and most of the collectors just want one of each of the types for a type collection.

An interesting comparison that proves this fact is that the total mintage of 1801 half dollars was 30,289 and the coin lists in the Redbook uncirculated for \$900.00, while the 1901-S half dollar, a hundred years newer with a mintage of 847,044 lists in the Redbook for \$800.00 in uncirculated condition. Now there is something a little wrong here as the 1915-P half dollar with a total mintage of 138,450 lists uncirculated for only \$215.00, but this was the last year of the Barber type half dollar and it seems that many of them were saved in uncirculated condition — or maybe a lot of the 1901-S

(Continued on Page 28)

7TH ANNUAL
COINARAMA
Oct. 16, 17, 18

*

El Cortz Hotel
SAN DIEGO, CALIF.

B. U. CANADIAN 1963 NICKELS

The hottest coin on the market today. Why is the 1963 nickel moving so fast?

*It is 'WAY UNDER PRICED

It has a lower mintage figure than the 1962 and 1961 nickel, which sell for over twice the price.

*It is in SHORT SUPPLY as the mint did not make them at the end of 1963 when dealers decided to buy them.

*It is the first year of the Queen Elizabeth ROUND nickel, which may start a new series for collectors.

*With the change in the design of Canadian coinage next year, it is now a type coin as a round nickel with the young head of Queen Elizabeth.

WANT TO BUY

1964 CANADIAN PROOF-LIKE DOLLARS

WILL PAY \$5.00 PER COIN

1963 CANADIAN PROOF-LIKE DOLLARS

WILL PAY \$6.75 PER COIN

1964 CANADIAN PROOF-LIKE SETS

WILL PAY \$8.25 PER SET

I want to buy and sell 1952-D Halves. This Half Dollar has the low mintage of 25,000,000. The 1952-P Half Dollar, with a mintage of 22,000,000 is trading for around \$90.00. The 1952-D, with an increase of only 3,000,000 above the 1952-P Half is a real sleeper. I will buy at \$2500 per BU roll and sell at \$32.00 per BU roll. I can guarantee delivery or immediate payment. Look around. This is a scarce, underpriced roll, but I can deliver. Who else can? Minimum buy and sell of 5 rolls each.

CHECK IS AIR MAILED SAME DAY MERCHANDISE IS RECEIVED
PLEASE CALL COLLECT IF SHIPPING OVER 1,000 COINS OR SETS

Call or write for low
prices on BU Rolls
and proof sets.

WILL SELL 1,000 oz. ingot .999 fine silver
WITH U.S. Treas. Stamp on it: face value- \$1,293.
WILL SELL FOR \$1,400. express collect With one
year Sept. Silver Futures trading at \$137.35
buy now at my low price.

Bowers on World Coins

Q. David Bowers

By Q. David Bowers

IN 1887 Queen Victoria celebrated the Golden Jubilee . . . 50 years on the throne of England. This event was cause for a complete change in coinage design. Up until then the sil-

ver and gold denominations used the portrait of young Queen Victoria facing right . . . known as the "Young Head" the portrait of Queen Victoria as a girl. This portrait was first issued in 1938 and was con-

tinued on to 1887 without any but just the slightest changes. In addition, certain denominations such as the florin (two shillings) and crown used the Gothic style . . . a crowned head of Queen Victoria facing left with the legends in Gothic script and dates in Roman numerals.

In 1887 the coinage was redesigned to what is now known as the "Jubilee Head." The celebration of the Jubilee was observed throughout the British empire. In England the new coins attracted new attention and consequently many of them were saved. Practically any old group of coins bought over the counter to an English coin dealer today will contain a quota of 1887 pieces.

There are, however, a few rarities in the Jubilee coinage series which lasted from 1887 through 1893.

In the threepence series the 1893 Jubilee style is very rare. Mint condition specimens are virtually unknown. The Jubilee design was used only for a month or so early in 1893; after which the "Old Head" design was substituted. The exact mintage of the Jubilee threepence pieces is not known but it probably was less than 100,000 pieces.

The sixpence Jubilee series has no rarities. The 1893 Jubilee head is fairly scarce, and uncirculated specimens of this year and

Firm Market for CANADIAN PROOF-LIKE SETS

Price Move In The Offing !

These are not only beautiful coins — but with the advent of a completely new coin next year — changing from the queen's profile of 19 years of age to a mature effigy, you should see these skyrocket in price by next Spring when the 1965's are released.

Only 12 dates in this short set of Queen Elizabeth. Watch these prooflike sets grow in value. Lots of Yankees will switch to Canadian since Eva says there will be no 1965 U.S.A. proof sets. Don't wait to see. Climb aboard NOW.

We sincerely believe these sets and proof-like dollars offer one of the soundest investment buys in today's market. I do not advocate liquidating your purchases prior to May 1965 for fullest short term appreciation.

The mintages are tremendously low. Interest in Canadian has been in new solid ground of widening interest since last December. Oldtime investors know of what I say. If you are a new investor, switch your weaker holdings into these for substantial leverage on your money. Then hold fast. Your position is solid.

For large investor lots, please phone for teletape quotes. We like brokerage business. Call 213 - 375 - 0089.

Prices subject to change without notice. Postage and insurance appreciated. California residents must add 4% Sales Tax. FREE Santa Claus coin medal in golden bronze commemorating the Christmas tree with order of \$33.00.

J. D. BIBE ANA

1919 Divisadero St.
Fresno, Calif. 93701

type must be rated as very scarce. However the diligent collector or investor will have no difficulty securing one after some months of looking.

The Jubilee shilling exists in two varieties . . . the small Jubilee head design coined from 1887 through 1889 and the larger Jubilee head coined from 1889 through 1892. Both types were coined in 1889. The small Jubilee head was deemed too small to be attractive, hence the enlargement. Specimens of the large head Jubilee shillings from 1889 through 1892 are fairly scarce in strictly mint condition. The 1889 small head is scarce in all grades; evidently the vast majority of the 1889 coinage was of the large head variety.

Florins of the Jubilee head were coined from 1887 through 1892. The years

1890, 1891 and 1892 are scarce in strictly mint condition. The 1887 is fairly common especially in EF to AU grades due to saving by the public in large quantities.

Jubilee halfcrowns were coined from 1887 through 1892. With the exception of 1887, the other dates are moderately scarce in strictly mint condition. As with many British coins for every example that exists in strictly Brilliant Uncirculated grade there are many in nearly Uncirculated grade. This is due to several reasons: English collectors have not been particular about preserving their coins carefully. More often than not they are kept in trays, often stacked one upon the other in contact with each other. American accessories such as polyethylene or cellophane envelopes for pro-

tection are virtually unknown. Another reason for the scarcity of strictly mint

specimens is that British silver coins were stored by banks in loose packets.

Consequently newly released specimens were often very nicked and bag marked.

Jubilee Head crowns were coined from 1887 through 1892. The 1887 and 1889 are the only dates regularly seen in strictly mint condition.

1888 with its mintage of only 131,899 specimens must be rated as truly rarer in strictly mint grade . . . a specimen now commanding in the \$50.00 to \$75.00 range. Unlike the United States, the Bank of England did not hoard Uncirculated crowns in quantity. Hence specimens were released into circulation on

or near the year of mintage. All 19th century silver crowns, with the exception of the aforementioned dates, must be regarded as rare in choice mint condition. Investment-wise they have fared very well in recent years. Today

there is much more de-

TORRANCE, CALIF. 90505

-CANADA SILVER DOLLARS-

Still remain the King of Canadian coinage and with the exception of a few dates, prices continue to rise due to the ever increasing demands of the collector and the fact that there just are not enough to go around. There are no huge hoards available and certainly no group has enough of any one date to materially effect the market.

This definitely places the Canadian silver dollar in the NON-SPECULATIVE class and in one of sound Numismatic Value. Look at the low mintages, scarcity, demand, prices paid; then decide for yourself.

LAYAWAY

A new service to our clients. A layaway plan whereby you can purchase any item in my ad. It's really quite simple.
You may purchase on our layaway plan at 10% over our advertised prices. On layaway purchases, merely add 10% to price. On layaway send your order with a deposit of 20% of the total amount. The balance may be paid in four monthly installments of 20% each. All items so purchased will be deposited in our vaults and shipped postpaid, insured immediately upon receipt of final payment. We deliver the same high quality coins under layaway plan that we deliver under our regular mail order. MINIMUM ORDER on layaway \$100.00.

P.S.—All quotes and inquiries should have a stamped self-addressed envelope.
Minimum order \$25.00. Bags shipped express charges collect.
On orders under \$50.00 please add postage.
All prices subject to change without notice.

Stainless Steel Seen as Substitute for Silver

STORM warnings on the worsening silver crisis have become almost as common as weather reports. Economists and precious metal experts have proposed remedies ranging from reducing the silver content of coins to outright substitution of other materials.

Steelways magazine, published by American Iron and Steel Institute, recently suggested that stainless steel has served well for governments since 1939 and might be worth considering for U.S. coinage.

Costa Rica, France, Italy, Albania, Turkey and Vatican City have found that stainless steel coins sustain

hard wear well and retain their brilliance.

While there is a divergence of opinions of what to do, there is general agreement that silver shortage, unlike a coin, has three sides: 1) the shortage of silver coins—dimes, quarters and half dollars—which are not being minted fast enough to meet the growing needs of the U. S. economy; 2) the fast-dwindling government stockpile of silver; 3) the inadequate supply of both domestic and general world supply of new silver.

One authority, Francis H. Wemple, treasurer of Handy and Harmon, a

precious metal refining and fabricating firm, recently called for the minting of coins without silver. He pointed out that at the present rate of use, the U. S. Treasury's stocks of silver, now about 1.4 billion ounces, would be exhausted within a few years.

This year alone, he said, about 215 million ounces of silver will be used for minting coins in the U.S. Industry consumed another 110 million ounces in 1962. But annual domestic silver production of only 40 million ounces is enough to cover about one-eighth of the

(Continued on Page 22)

Bowers

(Continued from Page 13)

mand for these pieces than there are pieces to go around. Hence, the popular crowns are considered to be

blue chips among English coins.

Proof sets were struck in 1887. These sets were issued to illustrate the Jubilee coinage and consequently did not include any of the bronze pieces. The set contains one of each silver coin from the sixpence through the crown plus the four gold coins: half sovereign, sovereign, two pounds and five pounds. These sets are seen today in a variety of different cases. Their value today is in the \$1,000.00 to \$1,500.00 range. Choice unmarked proof sets are quite rare. Most often seen are sets with badly hairlined or nicked pieces.

In addition, many 1887 mint sets were issued, some of the pieces of which had prooflike surfaces. Occasionally these sets are offered as proofs. When proper-

ly described as being what they are, mint sets, they command a value in the \$500.00 range today.

Dollar

(Continued from Page 1)

issued to commemorate the 150th anniversary of the Norwegian Constitution.

Forthcoming late November, the French prooflike issue of 1964 comprising the following denominations: 5 francs, 1 franc, 0.50 franc, 0.20 franc, 0.10 franc, 0.05 franc, 0.01 franc. The issue is expected to receive a rather warm although not buoyant welcome by the numismatic community. Far more interesting will be the 1965 French prooflike issue which will contain the "crown" 10-franc piece, delivery is not expected till spring of 1965 however.

Also very much in the news is the 1964 Bermuda crown now to be issued mid-November according to late dispatches. The issue has enjoyed far more

publicity than deserved. Supplies appear plentiful, total mintage may reach the 500,000 mark. A word of caution to prospective buyers of this material: It is preferable to wait till U. S. dealers are in a position to make immediate delivery, failure to do so exports valuable U. S. dollars to Bermuda where they are used to finance the INITIAL issue, thus precluding any profits for U. S. middlemen. Indeed three to four times face value charged right at the source is unjustifiable.

Recent developments in numismatics increasingly stress the need for fast communications. In turn for fast moving events, investors-collectors are entitled to complete and immediate coverage by their respective publications as to enable them first hand knowledge. Milton's thoughts formulated some three centuries ago remain as actual as ever: "For evil news rides post, while good news baits".

Trends

(Continued from Page 4)

is in the history room of the bank. At the top of the coin appears the words "The Concord Coach" and at the bottom the legend "Built in Concord—Immortalized by Wells Fargo".

An indication of the vital part played by the Coaches in developing the West is the fact that hardly a Western Motion Picture has ever been made without the Stage Coach becoming a part of its background and life. Abbott Downing Co. no longer exists but it did stay in business long enough to attempt motor vehicle manufacture and achieved a measure of temporary success with the "Concord

SEAL BEACH

Truck" chassis in the early 20th century. Now all that remains is a nostalgic memory of romantic days and a few well preserved and well cared for coaches in several corners of the Country.

Concord will have one or two of these taking part in the various parades and pageants throughout the year.

The commemorative is being struck by The Robbins Company of Attleboro, Massachusetts. They will be 1 3/8" in diameter, high relief on both sides with antique finish in both silver and bronze. Silver will be limited to 1,000 pieces serially numbered and boxed. The bronze will be struck in a strictly limited quantity and packaged in plastic bags.

As long as the supply lasts we will accept orders on a reservation basis for delivery on or about October 15, 1964, when accompanied by check or money order payable to Concord Bicentennial Coin and addressed to 37 Green Street, Concord, New Hampshire. The serially numbered silver pieces sell for \$7.50 each and the bronze for \$2.00".

Cents

(Continued from Page 5)

very low on a comparative basis.

I have learned that over the years there is a cycle on every series in numismatics. One hundred years ago there were many avid large cent collectors and during the 1880's tokens and medals were the most sought after items. In recent years, it has been the Indian Heads and Lincoln cents, and it seems that it is now about time that the early American coins will come into their own again. We believe that both Colonials and Half Cents, as well as the Large cents, will take their rightful place with the leading series in U. S. collecting.

Many dealers still sell large cents at very nominal prices. Just be sure to

get one whose grading you like. I recently checked the advertisements for prices of common dates Extra Fine large cents and find dealers offering to pay \$4 to \$5 and selling them at \$6 to \$7. Some dealers have them available in ten different or twenty different dates as "starter sets" and these will usually prove to be a good buy. These early coins, while not having the spectacular increases of the modern coinage, are good sound investment material, for a steady increase.

A few years ago our company always had large cents available by the hundred or thousand for wholesale. Today and for the past two or three years, we have found the number of large cents we are able to purchase, are just adequate for our retail customers, and as each year goes by, there will be less and less large cents available as there were limited number in

comparison with today's coinage.

Many thousands of large cents were mutilated and destroyed and used for a great variety of items from gears, teething rings, jewelry, and were also counterstamped for advertising purposes or just with initials or names.

One of the greatest boons to the large cent collector has been the Dr. Sheldon book; and Penny Whimsey. While these are invaluable to the variety collector, they are also a great asset to the beginner in checking out his coins.

I have often heard a collector or dealer say, "This must be a genuine large cent. It came from an old collection made up in the 1880's or '90's." This is a great fallacy as many el-

Material may be examined at the Auction Hall on the morning of the sale.

GEORGE BENNETT

Licensed & Bonded auctioneer.

DATELINE: FRELSBURG, TEXAS

NOTICE TO ALL COIN COLLECTORS AND DEALERS

Have you ever seen one of the beauty spots of Texas? Only 10 miles north of Columbus, Texas, on F.M. Rd. 109, stands the Oldest Parish in Texas. This will be the sight of a rather unusual church Bazaar on Oct. 18, 1964. In connection with this Bazaar, we plan to have a big coin show and sale. A large dance hall with about 30 bourse tables and public address system will be at the disposal of coin dealers and collectors from 1 p.m. to 6 p.m. The public will be invited to bring in their long hidden coins for grading and sale. Mr. Fred Barnett, local coin collector, will be on hand to introduce the people who are interested in coins. All numismatists are urged to bring proof sets, mint sets, a few 1950 D nickles, 1938S and D and 1939S and D, and whatever else they feel would be of interest to the public. All those dealers and collectors wishing to reserve a bourse table are urged to reserve same early. Phone Columbus PE 2-4389 or send reservation to Rev. W. A. Bockholt, Rt. 2, New Ulm, Texas, 78950. The name you desire will be placed on the table. Free-will donations will be accepted for the use of these tables. The Bazaar usually brings in a crowd of about 3 to 4 thousand people. Barbecue Beef and Mutton will be served at noon and good old Country Sausage at supper. Music and entertainment for the entire family during the day, followed by a free dance at night. Be sure to bring your family and friends and don't forget to get your reservations early.

310 W. Liberty
Louisville

very clever workmen. It is usually wise when buying any of the key dates in the early period to have them checked by a specialist in the large cent field, as there are thousands of fakes in collections today without the collector being aware of it. I have seen sharp 1793 large cent, brag about it in all sincerity, and they have been shocked and startled when I

have checked the coin for them and found it to be one of these very clever fakes.

Again I repeat, for pleasure and investment, the large cents will fulfill your requirements. (Credit should be given to Frank D. Washburn of the Copley Coin Company for his expert classifying of the Mathewson collection and compilation of prices)

Silver

(Continued from Page 4)

total national needs.

Supply is no problem with stainless steel. In addition, stainless steel is durable and economical, with a low intrinsic value. Silver, on the other hand, has recently risen in price and is in greater demand for photographic materials, sterling ware, dental supplies, electrical and space application. Substituting another metal for silver in coins would provide a plentiful supply of that metal needed for industrial and other uses vital to scientific progress.

Commenting on a coin design exhibition which

introduced several new coinage materials, one art authority called for an appraisal of coins from the artistic viewpoint. Thomas P. Messer, director of Manhattan's Guggenheim Museum, said that "our present coins have lost their claim... to represent 20th century America."

Six governments have given stainless steel the privilege and burden of serving as "coin of the realm." Lire, leke, kurus, colones, centimes, centimos or centesimi, they stand up durably in hand-to-hand service and perform their duties with built-in brilliance. Stainless steel coins for the U.S.? Possibly, since the United States Mint is no stranger to the bright alloy, as the Costa Rican specimens testify — and stainless steel is in plentiful supply.

Collecting

(Continued from Page 3)

Heraldic Eagle Type,
1804 - 1807

Selection: 1806, 1807
VG: \$40, VF \$200

Liberty Cap Type,
1815 - 1828

Selection: 1818 through

1821... VG: \$13-\$15, VF: \$50-\$66

Liberty Cap, Reduced
Size, 1831-1838

Selection: 1831 through
1838... Fine: \$8.50- \$10,
Unc: \$75-\$80

Liberty Seated Type,
1838-1891

Often subdivided in two
periods, without motto
1838 - 1866; with motto
1866 - 1891.

General Selection: Numerous
selected years, as
specimens in "Fine" bring
between \$3 and \$5 and
"Uncirculated" between
\$15 and \$20. In essence, no
acquisition problems are
to be expected. Liberty
Head Type, 1892-1916
(Barber)

Readily available, multiple
choice selection. "Fine"
as low as \$2.00, in Unc.
\$16 - \$20, should produce
esteemed specimen. Personal
selection 1906 and
1912 based on fundamental
reasons of mintage and
circulation characteristics.

Liberty Standing,
1916 - 1930

Selection: 1929, 1930...
Fine: \$2.00, Unc: \$12.50
Washington Head Type,
1932 to date

Common in uncirculated
condition, no special selection.

Minimum quarter dollar
type-collection: Bust 1796-
1807; Turban 1815-1838;
Liberty seated 1838-1891;
Liberty head (Barber)
1892-1916; Liberty standing
1916-1930; Washington
1932 to date.

Half Dollars, 1794 to Date
Bust Type, 1794-1795

Selection: 1795... Good:
\$95, Fine: \$175
Draped Bust Type, 1796-
1797

The only three alternatives
of this type sell in
the same price range: 1796
(15 and 16 stars)... Good.
\$900, VF: \$3,750; 1797...
Good: \$850, VF: \$3,250

These prices have
prompted many collectors
to omit the coin as a type
in itself to the benefit of
the entire draped bust series
(heraldic eagle included),
1796-1807.

Cherry Creek Numismatics

P. O. Box 6282
Cherry Creek Stations
Denver, Colorado 80206

Heraldic Eagle Type, 1801-1807

This issue is in effect considered the master "draped bust" type series. More liberal mintages than its predecessors of 1796 and 1797 make the coin more accessible to the average coin collector.

Selection: 1806, 1807 . . . VG: \$20, VF: \$50

Alternative: 1803 (large 3) . . . VG: \$40, VF: \$100

Considered by early half dollar specialists as a coin with a "future." Indeed it should be remembered that only 31,715 of both varieties, large and small "3", were struck, the exact proportion is of course unknown.

Liberty Cap Type, 1807-1836

Also referred to as Turban Head type.

Selection: A multitude of dates is available, in Fine \$5.00 or XF \$10, i.e. 1830, 1831, 1832, 1833, 1834, 1835, 1836. Varieties in all dates abound and are reasonably priced.

Liberty Cap Type, 1836-1839 (50 cents or half dollar)

A reeded edge characterizes the issue. Can be included in advanced type-collections.

Selection: 1839 . . . VF: \$25, Unc: \$75

Alternatives: 1837, 1838 . . . VF: \$25, Unc: \$80

Liberty Seated Type, 1839-1891

Entire series is attractively priced.

Selection includes: 1858-O, 1860-O, 1961, 1876, 1876-S, 1877-S, 1878 . . . VF: \$7, Unc: \$20

Barber or Liberty Head Type, 1892-1915

Selections include: 1892 plain through 1904 plain . . Fine: \$3.50, Unc: \$20 -

\$27.50

New Orleans (O) and San Francisco (S) issues sell at several times their plain equivalents. Entire series has been rather dormant in recent years but the last few months has seen the issue come to life. Liberty Walking Type, 1916-1947

Common in recent dates, Unc: \$2-\$3
Franklin Liberty Bell Type, 1948-1964

Common in recent dates, Unc: \$1.75-\$2
Kennedy Half Dollars, 1964 -

Common in uncirculated condition, because of discontinuation of proof sets, however, the 1964 Kennedy half dollar may be the only proof of this type.

A minimum half dollar type - collection should include: Bust, Turban Head, Liberty Seated, Liberty Head (Barber), Liberty

Walking, Franklin, and Kennedy types.

In keeping with recent trends, a type-collection of proofs can encompass the following issues, selection based on availability and price.

Dimes:

Liberty Seated, 1882 through 1886 . . . \$40.00, Barber, 1900, 1901 . . \$45, Mercury, 1942 . . \$10.00, Roosevelt, 1959 through 1964 . . \$1.00 - \$1.50

Quarters:

Liberty Seated, 1876, 1878 . . \$45 - \$50, Barber or Liberty Head, 1900, 1901, 1902 . . \$55, Standing Liberty, no regular proof issues Washington Head, 1964 . . \$2.00

Half Dollars:

Liberty Seated, 1876 . . \$60, Barber, 1900 . . \$80, Liberty Walking 1941, 1942 . . \$40, Franklin, 1960, 1961, 1962 . . \$3-\$4, Kennedy, 1964 . . \$15

Silver Dollars:

Liberty Seated, 1867, 1868, 1869 . . \$140, Morgan, 1900, 1901, 1902 . . \$135

Forthcoming, regular U. S. gold issues and U. S. commemoratives.

Space City Averages:

How They Are Obtained

With close to 1,500 separate statistics appearing each week in PACE, a need exists to express this information in graphic form for busy readers. We are currently charting eight different coin series each week as you see below. These charts are based on Space City Averages, an arbitrarily chosen group of rolls which we feel are representative of the total for that series.

To be included in the Space City Averages rolls are chosen on the basis of three factors: (1) their trading is constant, (2) they are widely held, and (3) they are indicative of the series.

It is obvious infrequently traded items, closely held items, and extremes in the series would not serve this purpose.

Each week the statistical staff of PACE prepares these averages from the information obtained on The American Numismatics Exchange transactions.

The amount expressed in the Space City averages is the total market bid prices for the rolls included in the averages. This is a dollar figure and is compared with previous week, month, and year figures for analysis.

The high and low for 1964 is also shown.

MARKET SUMMARY

OCTOBER 7, 1964

By Russell Brown

APPARENTLY most buyers were more interested in the World Series this week than in coins and as a result, prices slipped to some extent in cents, nickels, dimes, half dollars and proof sets. Even in the quarters and Peace dollars the market was quiet and only specific issues were in demand.

Roosevelt dimes showed seventeen declines against six advances but several dates such as the 1947-S, 1946-S and the 1947-D are still in demand and rising in price. There appeared to be a slight sell-off in late Mercuries and the 1955 PD and S Roosevelts. The 1951-S was also hit with a loss of \$15.

Jefferson nickels matched the dimes in performance with eighteen declines and five advances. The 1939-D roll slipped \$100 and was joined by the 1938-S and 1945-P in registering large losses. Largest of the gainers was the 1938-P at a five dollar increase.

Franklin halves experienced troubles in the key and semi key dates with the 1949-P, 1949-S and 1950-P suffering losses of \$35, \$20 and \$15 respectively. Small gains were scored by several Philadelphia late date rolls such as the 1960-P and 1962-P.

In the Morgan series, the 1891-P, 1899-P and 1897-P found no buyers and sank, price-wise, due to the decreased demand. However the 1891-O and 1882-S reversed the trend and made fair gains for the week.

Lincoln cents returned to their January first level with losses outnumbering advances by a 29 to two margin. While most declines were small in size, they were

spread throughout the series. The 1960-P small date roll was hit with a \$5 loss and was joined with losses of \$5 or more by the 1935-S, 1934-P, 1948-S and the 1942-S. The 1960-D small date also seemed to experience some difficulty and lost \$.50 per roll.

Washington quarters, while increasing slightly on average, still had more declines than advances, series wide and several of the losses were major. The 1942-S lost \$20 and the 1944-D, no longer being supported by blanket buying, lost \$40. The 1951-S and the 1946-S gained ground on good demand and the 1947-D, while not showing an increase, is asked for constantly.

Proof sets, after hanging in for four weeks following their big runup, finally weakened in price. Most losses were proportioned with bid price. The majority of the losses centered in the recent issue

sets though the 1936 set participated with a loss of \$50. The small date set was particularly hard hit with a loss of several dollars, as was the 1954 set.

Peace dollars seem to be in a period of consolidation. Following their spectacular gains of several weeks ago, the prices lowered somewhat and now are quite steady. A note of prosperity might be found in the fact that few of the rolls are being traded at current prices and when demand picks up, the purchasers are going to have to raise their bids to obtain any merchandise.

After the news of the Canadian ordering particulars last week the set and dollar market took quite a jump in price. Now the prices are once more settling somewhat and appear to be seeking a level at about \$8 for the set and \$5.50 for the dollar. Meanwhile the demand for select rolls of current

date Canadian coinage continues to increase.

The circulated market remained quiet with scattered gains and losses shown by the various series. The long term seems to indicate a steady price level for silver issues and a decreasing level for cents and nickels.

THE MARKET OPINION

We are finding it increasingly hard to set a fair closing price on the 1964 proof set. Factions in the market seem intent on running the price all over the landscape and we were seriously tempted to close out the price at 12-15 bid and 13-16 ask this week. On the other two exchanges there were numerous offers to sell in the \$13-14 range but most of the observers we contacted stated that the offerers were not honoring their commitments. On A.N.E. the level seemed to stay at about the \$15 level, possibly because there are fewer manipulators in that particular market place.

It looks as though the public still has not made up their collective mind as to just which series will be the fall season's popularity favorite. The market is currently mixed with a downward trend and there is little evidence that any one denomination has been picked as a leader. It is reassuring to remember that when the public makes up its mind to get back in the market the force of their purchasing power will certainly reverse any downward trend and turn it into a boom once again.

Using Coins Listed In Space City Averages

HALF DOLLARS

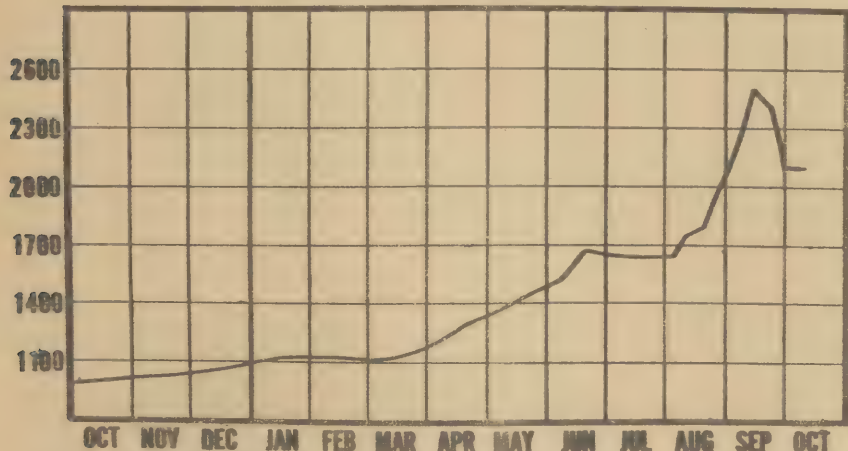

The following BU rolls were used in the calculation of the Franklin half dollar averages: 1948-P, 1948-D, 1949-P, 1949-D, 1949-S, 1950-P, 1950-D, 1952-S, 1953-S, 1954-S, 1956-P, 1957-P, 1958-P, 1959-P, 1960-P.

MORGAN DOLLARS

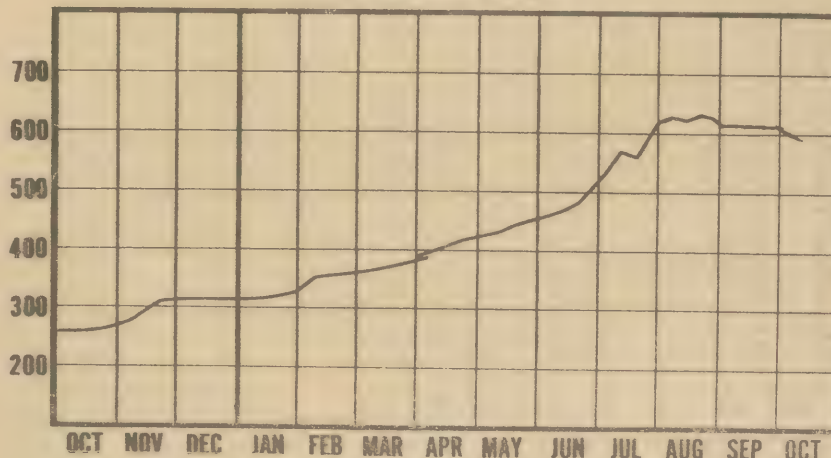

The following BU rolls were used in the calculation of the Morgan dollar averages: 1878-CC, 1879-O, 1882-CC, 1883-CC, 1883-S, 1885-S, 1890-O, 1894-O, 1897-P, 1897-O, 1897-S, 1898-P, 1901-P.

PEACE DOLLARS

The following BU rolls were used in the calculation of the Peace dollar averages: 1922-S, 1923-D, 1926-P, 1926-D, 1926-S, 1928-S, 1934-D.

PROOF SETS

All proof sets from 1950 to date, excluding the 1960 small date set, go to make up the proof set averages. The current year's set is added to the average on April first.

American Numismatics Exchange Transactions

BU Roll Prices as of Wednesday, October 7, 1964

These bid and asked prices, from the American Numismatic Exchange Inc., do not necessarily represent actual transactions. They are a guide to the range within which these coins could

have been sold (indicated by the "bid") or bought (indicated by the "asked") at the time of compilation. Price changes are obtained by comparison of weekly bid prices.

Prices are wholesale quotations compiled from the American Numismatic Exchange teletype system which serves 195 coin dealers across the country.

WITH the San Francisco mint closed and the low issues from that mint, there is no doubt that "S" coins will continue on the way up in price and demand. We continue to offer mixed date "S" rolls at attractive wholesale prices. No culls—scarcity and choice condition coins are left in. We invite you to give us a try and order several rolls. Small or large, your patronage is always appreciated.

All orders shipped prepaid Satisfaction or your money back

"S" Lincoln Cents (50 coins) \$1.95 per roll
"S" Jefferson Nickels Watch This One (40 coins) 4.50 per roll
"S" Dimes (Roosevelt - Mercury mixed) (50 coins) 7.75 per roll
"S" Washington Quarters (40 coins) 11.90 per roll
"S" Half-dollars (Standing Liberty & Franklin mixed) (20 coins) 11.90 per roll

SILVER DOLLAR SPECIALS

Here are some attractive offers, which contain many bargains. If you do not see what you want, let me know.

Your want lists will be given special attention. You will like my grading, which is strictly according to collectors standards. No such thing as "LU". A coin is either Unc. or it isn't.

All coins are absolutely guaranteed and you must be 100% satisfied, or I'll send you a prompt and courteous refund. I have less than one half of one percent returns, probably the lowest of any Coin mail order business. The reason for this is correct and conservative grading. I think you will also appreciate the fact that my grading is consistent whether I am buying or selling.

1,000 MORGAN DOLLARS

BU dollar bags today's best investment. With only a few of these BU dollars around the great demand will soon send prices on these scarce coins soaring. My supply and inventory changes rapidly so please phone for firm deal.

WANTED: All silver dollars worth a premium. I especially need the cheaper grades VG to VF listed above. My grading standards are the same when I buy or when I sell so you are guaranteed of a fair price. I have consistently paid more for silver dollars than any advertised buying prices. Many of my customers have sent me their duplicates in trade for coins they need. Why don't you do the same.

California residents add 4% sales tax. House calls by appointment only.

Send your Lincoln cents for prompt payment at these prices. Please mention Face. Checks will be sent to you by return mail.

May we suggest the best way to enhance your investment in coins is to use the W. H. Foster, Inc. LAYAWAY PLAN! You just pick out your needs and we'll put them in the vault in your name . . . ready to mail. Pay 20% down and the balance in monthly installments (or sooner if you desire!) All Layaway items are insured and sent prepaid at delivery.

THE FOLLOWING ARE OUR LAYAWAY RULES:

1. Minimum Layaway amount to \$50.00.
2. Add 4% to total order.
3. Send 20% down payment and pay 20% a month.
4. Certain items will be marked "no layaway."
5. Penalty: If payments are not complete, money will be refunded less 5% of total order.

Your order will not be delayed pending clearance of your check. All checks deposited on receipt. All orders accepted subject to prior sale B&D Grading. Five day return privileges. Please include 25c for

postage on orders under \$5.00. Washington residents add 4 percent sales tax. THINKING OF SELLING? Remember W. H. FOSTER, INC., has the "fastest checkbook in the west."
